Really good things
take Time

Full bodied taste. Enjoy slowly.

A full-page poster featuring the same woman from the previous images. She is lying on her back, looking up, with her arms raised behind her head. She is wearing a shiny, metallic, bell-shaped outfit. Her hair is styled in a voluminous, curly blonde wig. The background is dark, making the shiny fabric and hair stand out. At the bottom of the poster, there is text in English and Russian.

MAXIMUM IMPACT IN A SMALL SHELL

Cracking a small atom relieves immense power. The same happens if you open your Armada notebook. In computer world Armada laptops are limit to how much power you can get into slim, lightweight and strong magnesium alloy shell. Even better, Armada offers great flexibility and compatibility at surprisingly low price. But you shouldn't be surprised - it's a Compaq.
